THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

Cheshire, ss:

To the inhabitants of the Town of Walpole qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said town on Tuesday, the 8th day of March, next, 1955 at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose a Town Clerk, one Selectman, for three years, Auditors, Town treasurer, Road Agent, Collector of Taxes, Trustee of Public Funds, Surveyors of Wood and Lumber, Fence Viewers and all other necessary officers.

Article 2. To raise money for the support of the town poor, for town library, for cemeteries, to build and repair highways and bridges, and for such other current expenses as may accrue.

Article 3. To see if the town will vote to authorize its Selectmen to raise money on notes of the town for current expenses in anticipation of taxes.

Article 4. To see if the town will vote to allow a discount on taxes as has been the custom in previous years.

Article 5. To see if the town will vote to accept such funds or bequests as have been left to it during the past year.

Article 6. To see if the town will authorize its Selectmen to administer and dispose of and deed any real estate acquired by the town by tax collector's deeds after being advertised.

Article 7. To see if the Town will vote to raise and appropriate $500.00 to furnish equipment for the library.

Article 8. To see if the town will vote to raise and appropriate $950.00 to put in new culvert to replace old bridge on River Road, near Boggy Meadow Farm.

Article 9. To see what action the town will take with reference to bringing the Walpole Town History up to date since its issue in 1878, and appropriate a sum not to exceed $1500.00 to begin the preliminary gathering and organization of data; the suggestion being that the Historical Society will be glad to assume general responsibility for the outline and plans. By petition.

Article 10. To see if the Town will raise and appropriate $1800.00 to remedy land sliding situation on March Hill Road. By petition.

Article 11. To see if the town will vote to raise and appropriate the sum of $471.00 (1/100th of 1% of the valuation of the town) to the Monadnock Region Association of Southwestern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising, and by other means calling attention to the resources and natural advantages of the town, in cooperation with the other thirty-seven towns of the Monadnock Region. By request.

Article 12. To see if the town will vote to raise and appropriate the sum of $2,620.00 to be spent on reconstruction of streets in compact areas, the state to contribute an equal amount.

Article 13. To see if the Town will vote to allow a portion of the Common to be used as a playground and raise $1.00 for equipment for same and instruct Selectmen to see that this is accomplished this Spring. By petition.

Article 14. To see if the Town will vote to raise and appropriate the sum of $500.00 ($250.00 for North Walpole and $250.00 for Walpole) to support the recreation programs in each end of the town. By petition.

Article 15. To see if the Town will vote to raise and appropriate $5,000.00 to widen and hard top High St. between the junction of School St. and North Road. By petition.

Article 16. To see if the town will vote to raise and appropriate $4,000.00 to surface, gravel, tar and provide necessary guard rail on the Brewery Road, so called. By petition.

Article 17. To see if the Town will vote to raise and Appropriate $700.00 to remedy the damage on North End of Main St. in No. Walpole.

Article 18. To see if the Town will vote to raise and appropriate $2,500.00 to be added to the $3,000.00 now held in reserve to paint the Walpole and Westminster Bridge, the State of Vermont to pay their proportionate share.

Article 19. To hear the reports of the committees appointed in 1954 and take action thereon. By petition.

Article 20. To transact any other busines that may legally come before said meeting.

Polls to remain open until 6 p. m. or later if so voted.

Given under our hands this 5th day of February, 1955.

LAWRENCE W. GRAVES,
JOHN E. AYLWARD,
LOUIS BALLAM,
Selectmen of Walpole.

A true copy. Attest:

LAWRENCE W. GRAVES,
JOHN E. AYLWARD,
LOUIS BALLAM,
Selectmen of Walpole.

AUSTIN I. HUBBARD,
Treasurer.

I, a duly elected auditor of the Town of Walpole, have examined the accounts and records of the Library Treasurer for the year ending December 31, 1954, and hereby certify that the above report correctly reflects the cash receipts and payments for that period.

HARLEY W. SMITH,
Auditors.

REPORT OF TRUSTEES OF TOWN LIBRARY

The trustees wish to report a year without unusual incident at the South end of town. At North Walpole, the year as far as library service is concerned, was nearly lost, due to the necessity of moving the books from the old school building and storing them until the completion of the new village hall. Once it is possible to get established there, it is hoped the public will thoroughly enjoy the convenience and will make use of the many books that are at their disposal.

In Walpole Village the trustees have been working to improve the collection of books for children. We have had excellent advice from the state library on the selection of

these books and have chosen fiction and non-fiction for all age levels. These books will be in circulation soon.

We are, also, making progress, though slow, on the improvement of the cataloguing system.

We have accessioned one hundred and eighty one books, twenty eight of which have been gifts. These are exclusive of the children's books which are on order. We have availed ourselves of the Bookmobile and have borrowed one hundred and twenty books from it and over a hundred from the extension service of the state library.

Our circulation of books for the year in Walpole Village has been six thousand and forty three. We kept no record in North Walpole because of the disrupted service.

The trustees assisted in the establishment of the Great Books Discusssion Group, which met at the library until the night of meeting was set for a library night, since then the group has met at the high school.

The trustees have twice sponsored an exhibition of Arts and Crafts at the library.

Suggestions are welcome for the purchase of books or other ideas to more efficiently serve your reading needs.

Respectfully submitted,
MARGARET P. PORTER,
Chairman.

THE STATE OF NEW HAMPSHIRE
SCHOOL WARRANT

To the inhabitants of the school district of the Town of Walpole qualified to vote in district affairs:

You are hereby notified to meet in the Town Hall, in said district on the 8th day of March, 1955, at 2:00 in the afternoon, to act upon the following subjects:

1. To choose a moderator for the coming year.

2. To choose a clerk for the ensuing year.

3. To choose two members of the school board for the ensuing three years.

4. To choose a treasurer for the ensuing year.

5. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers and agents of the district.

6. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

7. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials, and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will authorize the school board to enter into a contract with the school district of Rockingham, Vermont, for payment of high school tuition.

10. To see if the district will vote to authorize the school board to use the sum of $3,500 with any accumulation thereon, that is now set aside in the so-called school bus garage account to pay any part of the purchase price of a new school bus.

11. To see if the district will vote to purchase a new school bus and raise and appropriate the necessary sum of money therefor.

12. To see if the district will vote to raise and appropriate a sum not to exceed $3,500 to be added to the budget for the purpose of employing an additional teacher for physical education and auto driving and to pay the cost of operating a driver training car.

13. To transact any other business that may legally come before this meeting.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Walpole:

I herewith submit my annual report as superintendent of your schools:

The citizens of Walpole are to be congratulated. A fine new elementary school at North Walpole has been occupied by the pupils and teachers since January 3, 1955, which is a full month ahead of the anticipated schedule. Briefly, there are nine classrooms, five are 25'6" by 24'10", three are 31' by 24'10" and one 36'4" by 24'10", the latter is used as a kindergarten-room. The multi-purpose room is 69' by 45' and has a stage 31' by 20'. The shower room can also serve as a room for working on handicraft projects and can be entered directly from the playground area. The Principal's office is arranged to serve as a teacher's room and health room. I suggest that citizens visit this new building in order that they may see at first hand the excellent facilities that have been provided.

The enrollment at the North Walpole School has increased by fourteen in the last three years which is an increase of approximately ten percent. The new building is planned to care for two hundred and ten pupils which will allow an increase of about seventy pupils beyond the present anticipated enrollment.

Enrollment at the Village School has increased by ninety-one pupils in the last three years and we expect

an increase of thirty more in September 1955. This will be an increase of approximately twenty-five percent in three years. There will be five pupils for every four that were enrolled in 1952 and the school census shows we can expect a total increase of twenty pupils a year for at least two more years.

We have to find another room for the elementary grades next year and add another teacher for our elementary staff. Grades seven through twelve are operating in ten rooms as two rooms are used for grades five and six that were formerly used for grades seven through twelve. A room formerly used as a music room is now used as a regular classroom and a room formerly used as a library is now used as a classroom. We are planning to use the cafeteria as a part time music room and study hall next year.

The increased enrollment in the agricultural course will make it necessary to have three sections next year as compared to two sections this year and the size of two of these sections is too large for the facilities now available at the Hooper Building. There is also the question of adequate facilities for seventh and eighth grade shop classes.

By careful scheduling of classes, providing some more classroom space either in the Village School or at the Hooper Building, and asking teachers to assume heavy class loads, it will be possible to get by this coming year, however, the arrangement will be far from satisfactory.

A definite expansion program should be planned and take place as rapidly as possible. There is a real need now for four more additional classrooms at the Village School and a real need for additional space for vocational agriculture and seventh and eighth grade shop classes.

Many schools have added auto driving as a part of their curriculum not primarily to teach the rudimentary mechanics of auto driving, but for the purpose of teaching that driving an automobile is a responsibility, to teach safe driving habits and to develop a driver who has a mental attitude that makes him or her a safe driver. It is

a rather expensive course when considered on a per-capita basis, but it is worth the expense if it saves your son or daughter from having an accident. The State Motor Vehicle Department has statistics that prove that youngsters who take behind-the-wheel auto driving courses have considerably fewer accidents than those who have not taken the course.

In a previous paragrah I mentioned the heavy class loads for teachers that will have to be scheduled next year. These extra classes mean that there will be few if any classes scheduled for physical education, unless a teacher is employed for this purpose. The Hubbard Gymnasium should be used for more than just interscholastic athletics.

It is my recommendation that a physical education teacher be employed who will also teach auto driving.

It has cost a great deal to keep one of the school busses in service this year. This bus should be replaced with a new bus.

Three of the four school busses are making four trips a day and one bus makes several trips each day to the Hooper Building. Next year all four of the school busses will be making four trips a day. The number of trips could be reduced if pupils were required to walk longer distance to school and if two of the routes were discontinued that serve pupils living on highways that have considerable traffic and are considered hazardous for pedestrians. The changes in the number of routes would not reduce the cost of transportation materially as the overhead which is the principle cost would remain the same as long as we can maintain services with four busses. When an additional bus is needed it will mean a considerable increase in transportation cost.

Increased enrollment is a national situation, as is the shortage of qualified teachers. The best current estimates show that it is statistically impossible to get enough qualified teachers to staff our schools fully in any one year between now and 1964. The law of supply and demand is causing a considerable increase in teacher's salaries.

The budget is larger again this year. It is not possible to have new construction without added cost. Increased enrollment requires the addition of more teachers, and also requires more books and supplies.

Mrs. Frances Bolles replaced Mrs. Priscilla Bechok as teacher of Home Economics. Mrs. Bolles is a graduate of Keene Teachers College and has had previous experience at Fitzwilliam and Colebrook, N. H. Mrs. Mary Fredette replaced Mrs. Grace Chandler as teacher of English and Social Science for grades seven and eight. Mr. Roy Miner and Mr. Paul Robbins replaced Mr. Roger Weeks. Mr. Robbins teaches on a part time basis in the field of vocal music and Mr. Miner on a part time basis in the field of instrumental music. Mrs. Audrey Ericson, a graduate of Keene Teachers College who taught the previous year in Claremont, replaced Miss Mildred Stearns who was given a year's leave of absence. Miss Jacqueline Greenough, a recent graduate of Keene Teachers College who did her practice teaching in Charlestown, is an additional teacher, is teaching one section of the first grade. Thaddeus Dulski, a graduate of Alliance College, Pennsylvania, replaced Mr. Raymond Bolduc as teacher of English and Social Science in grades seven and eight at North Walpole. Miss Barbara Stevens resigned in January 1955 and was replaced by Miss Laura Beth Barry, a graduate of Plymouth Teachers College who did her practice teaching at Claremont High School.

The Walpole teachers have met once a month with the teachers of Supervisory Union 60 for the purpose of sharing information, studying ways and means of improving teaching methods and strengthening the curriculum. This year, particular emphasis has been placed on a study of mathematics, teaching methods and the teaching of mathematics fundamentals. In addition to the regular monthly meetings, the Walpole teachers will participate in a Reading Workshop to be held in Walpole for three days during the February vacation.

ENROLLMENT
January 7, 1955

Grade	K	1	2	3	4	5	6	7	8	9	10	11	12	Tls.

ELLIOTT W. KEACH,
Superintendent of Schools.

REPORT OF THE SCHOOL NURSE
WALPOLE

The following is my report for the year ending June 30, 1954:

339 pupils were examined by Dr. William Tatem.
The following defects were noted and reported:
110 pupils were in need of dental care.
127 pupils had dental care.
9 pupils had enlarged tonsils.
3 pupils had sufficient wax in ears to obstruct the canal.
2 pupils had a squint of one or both eyes.
4 minor heart conditions.
3 inguinal hernias.
1 orthopedic.
331 pupils had hearing tests given by the school nurse.
553 pupils had vision tests given by the school nurse.

16 pupils had eye examinations and defects corrected by a doctor.
60 pupils attended pre-registration clinic.
210 pupils participated in diabetic testing program.
234 pupils participated in patch test for tuberculosis.
54 pupils and teachers were X-rayed.

Home visits were made by the school nurse which I feel were profitable to parents and the school.

ELLEN L. McAFEE,
School Nurse.

REPORT OF PRINCIPAL NORTH WALPOLE SCHOOL

Mr. Elliott W. Keach, Superintendent of Schools,
Walpole, New Hampshire.

Dear Sir:

I herewith submit my annual report as principal of the North Walpole School.

SCHOLARSHIP

This has been a very busy year for the school in North Walpole and I hope it will prove to be a successful one. First we had the solid session plan and then the two session plan, with the opening of the new school. These change-overs necessarily brought about many difficulties, with each set-up, having its own problems.

The aim to educate the whole child has been foremost in the planning of the program for the new school. The daily schedule has been changed so that all the grades have "gym" classes twice a week. The teachers have been supplied with books, entitled, "Physical Education in an Elementary School." I hope through teachers' meetings, and other means, to have the program well established by the Fall of 1955.

Achievement tests were given in all the grades last Spring. These tests, were used as guides by the teachers, to

indicate to them the areas of learning that had been mastered and those which had not been thoroughly learned. The pupils within each grade, were grouped according to the errors made on the tests, and those areas of study in which they had shown a weakness were taught again. Later on in the year the children were given similar tests made by the teacher, and the results were quite satisfactory. Many of the students showed definite gains in their achievement.

The teachers from grades two and four have successfully completed courses in Education at Keene Teachers College this Fall and Winter. Many of the teachers have expressed their desire to take courses at the same institution during the second semester.

With the opening of the new school, faculty meetings will be resumed on the basis of at least once a month. I hope to conclude our discussion on "The Slow Learning Child" this year, with our next few meetings being devoted to the "Skills Program" for this group. The teachers have indicated that they would like to take up the subject of "Health in the School" for their next major consideration at their meetings.

ORGANIZATION

The Hobby or the Interest Period was continued in the school as in the past. An exhibit of the work accomplished, as well as samples of school work done by each child sometime during the year, was held the latter part of May. Many of the parents visited and viewed the work of the pupils in the school. An opportunity for the parents to consult with the teacher about the work that their children were doing, was given. Such interviews are often very beneficial both to the individual concerned and to the teacher. I recommend that the parents seek interviews with the teachers of their children, more often during the school year. An exhibit will also take place this year again in May, in the new auditorium of the new school. Two one-act plays will be presented by grades seven and eight at this exhibit.

Assembly periods are held every two weeks on the average, with grades seven and eight alternating, to provide the entertainment for the other grades. Variety shows, plays, reciting poetry, book reports, and sometimes a general music period, are examples of programs that were presented. All of the pupils must take part in two or more of these programs and thus each is given the opportunity to speak before an audience, which is an important phase of their education.

Socials, organized and directed by the students themselves under the guidance of a teacher, are held from time to time. Games and square dancing seem to be the most popular among the pupils.

Grades seven and eight presented two one-act plays the latter part of February, last year. The names of the plays were "Hold the Line, Please" and "A Mad Breakfast." The Glee Club rendered two musical numbers between the plays. Both the plays and songs were well received by a large and enthusiastic audience. I wish to congratulate the boys and girls participating, for their performances.

The Patrol System has operated as it has in other years, contributing their part toward the prevention of accidents.

The Accident Insurance Policy was taken out by most of the students. The policy insures a child against any accident happening in school, on the school grounds, or on the way to and from school.

The school has sponsored athletic teams in touch football, basketball, and baseball. Through our program, we have I think, taught our boys the lessons of good conduct and sportsmanship both on and off the playing field. Basketball, for the girls, and for the boys, who do not play on the team has been added to our list of activities. Games for the boys are played on Saturday mornings, and for the girls on Saturday afternoons.

A milk program has been inaugurated in our school, whereby the boys and girls can have milk before the recess

period in the morning. The milk is delivered to the school every morning at ten o'clock and the older boys see to it that it is distributed to the different grades.

I wish to thank parents and friends for their support in purchasing a copy of the "Hilltop News" last year. The proceeds from the sale of the yearly booklet, put out by the pupils of grades seven and eight, were used to purchase a screen for the film-strip projector. Grades seven and eight are at present working on their publication and wish to state that it will be as good, if not better than last year's edition.

The faculty, students, and myself wish to thank the citizens of the town for making available to us, the wonderful new facilities that we now have. Better schools mean a better education, and a better education means that our boys and girls will go forth more fully equipped to meet and solve some of the problems that they will have to face in High School.

I extend my appreciation to all of the personnel connected with the school, the Superintendent, the School Board, the teachers, the students, and the custodian for their cooperation and interest, in making our school year a success.

Respectfully submitted,
JOSEPH Z. DUBE,
Principal.

REPORT OF THE PRINCIPAL
WALPOLE HIGH SCHOOL

Mr. Elliott W. Keach,
Superintendent of Schools,
Walpole, New Hampshire.

Dear Sir:

I herewith submit my annual report as principal of Walpole High School.

GRADUATES

Of the thirteen graduates of the Class of 1954 one is enrolled at Simmons College, two at Baypath Junior College, one at Lasell Junior College, one at Becker Junior College, one at the Thompson School of Agriculture at Durham and one is in training at the Elliot Community Hospital in Keene.

ORGANIZATION

The Walpole High School daily program is based on a seven period day plus an activity period. Periods average forty-five minutes in length. The activity period scheduled as the last period of the day includes the time allotted for glee club rehearsal, intra-mural gym practice, assemblies and class meetings.

Due to the increased enrollment this year, it was found desirable to divide the school by grades on a 6-2-4 basis. The results of this move to date have been highly satisfactory. For the junior high school we have been able to schedule a separate lunch period, noon recess, activity period, and assembly period. It has also been possible to divide the study halls so that the junior high now has some of its study periods in its own home-rooms under the supervision of junior high personnel. These moves are educationally desirable and have been well accepted by the school.

Another addition to the junior high school curriculum has been the inclusion of group guidance classes. A regularly scheduled period is devoted each week to the study and discussion of pertinent educational and social problems. Classes in vocal and instrumental music are held weekly. Two periods of manual training for the boys and home economics for girls are scheduled each week.

In the senior high school, there are a few changes to be noted. In Grade 9 a course in Civics and Youth Problems has been added. This course presents the problems facing youth entering high school and attempts to help the pupil answer those questions vital to his success in school and

life adjustment. This course is being used as a basic guidance tool at the Grade 9 level and may be recommended as a required course next year. In Grade 11, a half-year course in Psychology has been added this year. This course deals with the study of personal and group adjustment of the individual. During the second semester, a course in Sociology is being offered which logically carries along the study of the first semester into the field of social problems of the community, state and nation. The course in Psychology contains much guidance information and is proving to be a valuable adjunct to our total guidance program.

In addition to the guidance carried on in the above courses, counseling is available from teachers in each department of the school. In this regard, the commercial department has been particularly effective in acquainting the girls with the opportunities available at commercial colleges. The principal also has time scheduled in the school day for counseling.

The audio-visual program is now further organized. Film strips and movies are scheduled regularly in all phases of the school program and are strictly educational in nature. A Da-Lite screen, purchased this year, now allows us to show films and film strips in undarkened classrooms. This has been most helpful in view of the fact that there are no special rooms now available for this purpose.

FACULTY MEETINGS

Faculty meetings for both the elementary and high school staffs are held every two weeks. During this past year the elementary faculty revised the arithmetic curriculum in Grades 1-8. This was a large undertaking and consumed many hours in addition to our regular meetings. A comprehensive syllabus was worked out which included a specific outline of subject matter to be taught at each grade level, methods and terminology to be used by each teacher, audio-visual aids, recommended grouping practices inside each grade as well as testing and evaluation techniques to be used with the new program.

In the secondary field, in addition to the necessary detail of school operation, meetings were used for general curriculum planning and guidance work. The results of our testing program in English and mathematics have been studied by the teachers and, as a result, recommendations for next year's program have been made. They include scheduling an additional course in general mathematics at the grade 12 level, and the division of three high school English classes into homogeneous groupings next year.

EXTRA-CURRICULAR ACTIVITIES

The faculty and pupils are carrying on a full and active extra-curricular program this year. The emphasis of the activity program has been to include varied activities of interest to a majority of our pupils and to insist upon participation of all pupils in some phase of it throughout the year.

The boys' and girls' gym classes are held on Tuesday and Wednesday and attendance is voluntary. Thus far an average of about thirty-five boys and about the same number of girls have participated. During the Fall, the boys played touch football games with Vilas and Vermont Academy. The girls' program was confined to intra-mural competition.

Practice for the basketaball season began November 8 with about thirty boys reporting to Coach Robert Desmarais. This is the largest turnout in recent years. The varsity is composed of fourteen boys, the remainder of the squad playing junior varsity ball under the direction of Mr. Richardson.

The girls' basketball team is composed of fourteen girls. A very promising group of freshmen has augmented the group left from last year's varsity team. With added experience gained from additional game competition, the girls should develop into a well balanced aggregaton.

The junior high basketball program includes practices during the daily gym period. In addition, two prac-

tices per week are scheduled after school for the boys' team. As in the past, the junior high will participate in the Bellows Falls Tournament. New uniforms were purchased this year for this group out of their share of the tournament proceeds last year.

In dramatics, the Thespian Club presented three one-act plays during the Fall. These were a success and provided valuable experience. A three-act play is scheduled for the winter season to be followed by the annual One-Act Play Competition in the Spring.

The Safety Patrol under the leadership of Mr. Hague is to be commended for its efficiency in carrying out its duties this year. The patrol had a State Safety Officer at the school this year to present a program on safety and the duties of a safety patrol.

The Cheerleading squad under the direction of Mrs. Larsen is also to be commended for its activities this year. This group raised money for the purchasing of new uniforms for the varsity squad this year by holding food sales during the Fall. The cheerleaders carry on an interesting part of the sports program with their colorful and original cheerleading routines.

The Student Council has carried on a number of worthwhile activities this year. A magazine campaign was sponsored in the Fall which netted a profit of approximately $200.00 Much of this money was spent to purchase new uniforms for the boys' varsity basketball squad. Two boys were sponsored by the Student Council to attend the Older Boys' Conference held in Nashua. At Christmas, the Council voted to send a gift of twenty dollars to the Cedarcrest Home. The Council has also materially aided the library by alloting six dollars per month for the purchase of new books. Money for these worthwhile projects is raised in the most part by the sale of ice cream at the school.

Participation in the work of the Student Council has provided numerous opportunities for pupils to gain an experience in effective leadership and group organization,

lessons which will be of value in promoting the democratic way of life in their communities after graduation.

MUSIC DEPARTMENT

The music program of the school has been reorganized and enlarged this year. Mr. Paul Robbins is now instructor of vocal music in all grades. The glee club which numbers forty pupils has shown considerable progress. In December they combined with Vilas to present two Christmas concerts. Additional programs including the All-State music festival are scheduled during the remainder of the year.

The instrumental music program is under the direction of Mr. Roy Miner. One day per week is devoted to teaching band classes. At present we have a senior band of 23 pupils and a promising group of beginning pupils. We were also fortunate this year in securing thirty-three band uniforms. The uniforms are complete and in good condition. Needless to say, the acquisition of these uniforms has done much to increase interest in the band program. The school is indebted to the Parent Teachers Association for financing this project.

CAFETERIA PROGRAM

The cafeteria program has been under the capable direction of Mrs. Dwight Jeffrey this year. Mrs. Arline Jeffrey has been the assistant. The cafeteria and kitchen were newly decorated during the past summer and additional work space and cupboards were also added. Total lunches served monthly have averaged over 5,000 so far this year. Pupils are charged 25c per meal as in the past. We have received a considerable amount of surplus food and this has aided considerably in keeping down the total cost of food purchases.

SCHOOL LIBRARY

A helpful and interested group of student librarians has more than ever helped to improve and expand the services of the school library. This work has been made doubly difficult with the use of the library as a classroom

on nearly a full-time basis. However, under the capable direction of Miss Brennan, the library has been made available to the pupils nearly every period of the school day.

Additions to the library include additional shelving to meet the need for additionad book space, the purchase of two new unabridged dictionaries and fifteen Webster Student Dictionaries. This has given us more adequate reference materials for all classes. The money provided by the Student Council has been used to purchase much needed fiction books for student reading.

Current reading materials for the pupils include the same magazines and newspapers which were listed last year in this report.

We are indebted to a number of people who have purchased subscriptions for the school library and who have shared materials with us throughout the year.

VOCATIONAL AGRICULTURE DEPARTMENT

During the latter part of the school year of 1953-54, several changes were made in the physical setup of the Hooper Building and grounds. The orchard, which was a non-paying proposition, both from instructional value and monetary value, was removed and the area of about four acres, seeded to grass and clover. The hardwood floors in the school building were sanded and two coats of sealer applied which brought the floors back into nearly new condition.

At the present time, plans are underway to increase the shop facilities for the coming year. The increase in enrollment which is expected for the year will make it impossible to give competent instruction unless some increase in facilities is also provided. In 1953-54 the total enrollment in vocational agriculture was 21 students in the two divisions; in 1955-56, the expected enrollment wll be approximately 43 students which is a 100% increase. This also makes it mandatory for the agriculture classes. It is

expected that another teacher will be needed in the instruction of Manual Arts.

During the year of 1954, the Future Farmers of America group undertook a new project. This group sponsored and organized a school field day on May 14, the object of which was to beautify and to make several areas of the main school facility more safe. To this end, shrubs and trees were planted on the school grounds, parking areas were painted, a set of steps were built down to the athletic field, the athletic field itself was graded and sanded and the bleachers were painted. With the cooperation of the faculty and the entire student body, the Field Day was a great success.

The Annual School Fair, another project of the FFA and the FHA was held this fall. The fair was well attended and very successful.

Our Agricultural Department is a growing part of the school. With the cooperation of the Advisory Council, the School Administration and the townspeople, we believe that it will, in time, be one of the best departments of its kind in the state. Already, for the coming year, our enrollment will be second only to one town in the state. With the increased interest on the part of parents and the boys receiving agricultural instruction we have the basis for a sound program of agricultural education.

HOME ECONOMICS DEPARTMENT

The Home Economics Department has shown steady growth in the past two years. There are approximately 40 girls in the junior high classes. Basic units in sewing, cooking, and personal grooming are stressed and the level of interest is high. In Grades 9-10, there are 17 pupils enrolled. Units covered in this course during the year include food and nutrition, clothing, and textiles.

Grades 11-12, the class in Home Management includes 17 pupils. Units covered in this area include home selection, decoration, beautification of the home and

grounds, and selection and care of equipment. Furnishings for the home are made under class supervision. Budgeting is another unit receiving special emphasis.

During the past year, the Home Economics Department has added additional equipment. For the clothing classes, we now have a new sewing machine with all attachments. The unit kitchens have been made more attractive by the addition of boards, dish drainers, mats, soap dishes, canister sets and other related materials. Each unit is decorated in a different color. We are planning to install shelves under the sink and a new cupboard for additional storage space.

The Home Management Classes made curtains for the cafeteria and also have redecorated the teachers' room, making slip covers for the chairs, a couch cover, tablecloth and curtains.

The classes also entered the National Cherry Pie Contest for the first time. Patricia Britton was chosen as the winner from the school and has entered the regional contest.

SCIENCE DEPARTMENT

The Science Department under the direction of Mr. Hague and Mr. Richardson is carrying on an exceptionally full schedule this year. Approximately two hundred pupils are using these facilities every day. The schedule includes grade 7 science, grade 8 science, general science in grade 9, biology in grade 10 and physics chemistry are alternated for grades 11 and 12. In addition, thirty-five pupils in grade 9 use the laboratory for a home room. The laboratory equipment serves approximately 150 pupils five days a week.

The Biology class has new textbooks this year. New texts were also purchased for one section of Science 8. These books are now being shared between the two sections until additional books can be added. Much work is being done in workbooks and laboratory manuals in chemistry, general science and biology, especially when experiments

are performed. There are sufficient audio-visual materials such as film strips available for the science groups in grades 7-9. In the upper grades, use of sixteen films enrich the offerings in physics, chemistry and biology.

This year the Chemistry and Biology departments received an ample supply of essential materials for laboratory work. Such things as prepared specimens for disection work, glassware, Bunsen burners, balancers, rubber tubing and chemical reagents have been particularly welcome. There is still the need for more equipment, especially for the physics class, and with the anticipated larger number of pupils entering these classes, it is essential that all the laboratory stations be completely equipped for the pupils use.

I wish to thank the School Board, Superintendent, faculty and the people of Walpole for their continued cooperation.

Respectfully submitted,
KERMIT W. COOK,
Principal.
